PROFESSIONAL SUMMARY

Full-stack developer with 4+ years building web and Android applications in SvelteKit, Next.js, and Capacitor. Shipped 7 apps to Google Play — 500k+ downloads on the leading app — end-to-end from Figma to production. Seeking remote full-stack roles across Web and Android.

EXPERIENCE

Full-Stack Developer - Smartago LLC (UniStar.BG Ltd subsidiary) 08/2025 - 06/2026

- Shipped 7 Android and web apps to the Google Play Store, implementing Figma designs end-to-end.
- "XAPK Installer APK Downloader" surpassed 500k+ downloads; two Android TV apps passed 100k+ each.
- Integrated Capacitor with SvelteKit to ship one codebase to the Web and native Android.
- Integrated Google Play Billing with idempotent verification to prevent duplicate transactions.

Full-Stack Developer - UniStar.BG Ltd (Bulgaria) 01/2025 - 06/2026

- Developed web automation and scraping pipelines and dissected APK structure and packaging.
- Built a parallel queue task system (worker pooling) for large volumes of scraped data.
- Created a full admin panel (PostgreSQL, Drizzle ORM): app CMS with multi-language support (manual, DeepL, Gemini AI), order and sales management, and usage statistics.
- Managed production deployment on Plesk and Webuzo, including VM instances and a monorepo with CI/CD.

PROJECTS AND ACHIEVEMENTS

- Door Lock Module (2026) - university capstone smart door lock with RFID and face recognition (Arduino), registered with the Intellectual Property Office of the Philippines (IPOPHL).
- Top One Uwu (2022) - AI study assistant that went viral in the Programming Philippines community; featured in Inquirer.net, a popular media outlet in the Philippines, and interviewed live on CLTV36.

SKILLS

Frontend: TypeScript, JavaScript, SvelteKit, Next.js, React, Tailwind CSS, SCSS, HTML

Backend: Node.js, Supabase, Firebase, PocketBase, PostgreSQL, MySQL, PHP, Drizzle ORM

Mobile: Capacitor, Google Play Billing, Progressive Web Apps, Google Play Store deployment

Hosting and DevOps: Vercel, Render, Cloudflare Pages, Plesk, Webuzo, Nginx, VPS, CI/CD, Git

AI and APIs: OpenAI API, Google AI Studio API, DeepSeek, LLM prompt engineering

EDUCATION

BS in Information Technology - Bulacan State University, Sarmiento Campus

Graduated **Magna Cum Laude** | 2025

LANGUAGES

Filipino (Native) | English (Proficient)
